MDBs' lending resources to face more pressure: FM

'Digital public infra helped make optimum use of taxpayers' money'

₹inance Minister Nirmala Sitharaman on Thursday said multilateral development banks' (MDBs') lending resources would face increased pressure as non-borrowing shareholders were asking them to expand their mandate to address transboundary challenges.

Sitharaman was speaking at a roundtable discussion on 'evolving the model of MDBs to address 21st century challenges'

The minister said based on the current pace of implementation of the capital adequacy framework and its recommendations, it was estimated that an additional lending capacity of over \$100 billion would be generated by the MDBs over 10 years. "However, given the scale and scope of the global development and financing challenges, this is not enough, much more needs to be done," Sitharaman said.

She said the issue needed a multipronged approach and work on capital adequacy framework recommendations would enable MDBs to utilise their existing resources more effectively. The review of the equity loan ratio by World Bank, the recalibration of the shareholders' risk appetite by the Asian Development Bank are recent examples in this context.

Under the Indian G20 presidency, an expert group on strengthening MDBs will touch upon all aspects of MDB evolution,

Sitharaman also said digital public infrastructure had allowed India to make optimum use of taxpayers' money.

Fitch ups India's FY24 growth estimate by 30 bps to 6.3%

Cites stronger outturn in Q4, but cautions against slowdown in global trade

SHIVA RAIORA

New Delhi, 22 June

Fitch Ratings on Thursday revised upwards its economic growth estimate for India by 30 basis points (bps) to 6.3 per cent for 2023-24 (FY24), citing stronger outturn in the March quarter of FY23 and near-term momentum.

It, however, cautioned that the slowdown in global trade still posed a downward risk.

In March, the credit rating agency had lowered its growth forecast for FY24 to 6 per cent from 6.2 per cent citing headwinds from elevated inflation and interest rates along with subdued global demand.

It estimated the Indian economy to grow at 6.5 per cent for both years of FY25 and FY26. This compares with 7.2 per cent gross domestic product (GDP) expansion in FY23 report said.

Factory checks in 2019 at 13-yr high, convictions doubled over 2018

SHIVA RAJORA New Delhi, 22 June

The number of factory inspections carried out by labour departments in several states and Union Territories (UTs) in 2019 nearly trebled to a 13-year high. The total number of inspections carried out by labour departments rose to 85,558 in 2019, from 28,489 in 2018, according to the latest annual data released by the Labour Bureau.

The annual data on factory inspections released by the Labour Bureau with a time lag is a compilation of the data furnished to it by state and UT labour departments, as the rules framed under the Factories Act, 1948, impose an obligation on all registered factories to submit annual statutory returns and administrative reports to their local labour commissioners.

In 2006, 92,261 inspections were conducted - a higher number than that in 2019.

Of the total 234,696 registered factories, 69,328 (29.5 per cent) underwent inspection only once in 2019, while 15,272 (6.5 per cent) factories underwent inspection twice, and just 584 factories (0.2 per cent) underwent inspection thrice.

A senior official from the Department of Employment and Labour says that the rules framed under the Act impose an obligation on the inspectorate staff to enquire into com-

persons, etc, regarding infringement of the provisions of the Factories Act, 1948.

"The inspectorate cannot take suo motu action against any factory for any violation. It is only upon receipt of a formal complaint that action is taken by the department. The rise in

plaints lodged by individual the number of inspections workers, trade unions, private means more violations were reported in the year," he adds. However, K R Shvam

Sundar, visiting professor at the Impact and Policy Research Institute, says that the main reason for this spike could be that a major industrial state that might not have submitted the data earlier increased in recent years.

would have done so later in the year, as this data by the Labour Bureau does undergo significant fluctuations.

"Mostly, these violations are borne by small and medium-scale and labour-intensive enterprises, which are essentially home-run units or have meagre resources to comply with the provisions of the Act. Most of these violations occur due to noncompliance with the safety and environmental provisions of the Act. A major industrial state like Tamil Nadu, which has huge clusters of small enterprises, furnished its data in 2019, which could be the reason for this spike," he adds. Also, the number of con-

victions recorded in 2019 (5,722) doubled from the 2018 levels of 2,630.

"Generally, the inspectorate issues a notice to the management regarding the violation. If it fails to comply with it, legal action is taken against the violator, resulting in a conviction as well. Generally, they do comply, and it's only a few repeat offenders that face legal action," adds the official.

Amarieet Kaur, general secretary of the All India Trade Union Congress, says that the rise in inspections and convictions is a result of the general disregard for workers' rights that has
